Our mission

Why the MASTER?

-Because our products meet expectations.

Our company focuses on the needs of ladders and scaffolding users, and this inspires us towards continuous improvement. You can feel it, by doing housework, in a workshop or on a construction site.

Your success is our goal! Several years of experience allows us to create safe, innovative and durable products. We are a brand which you can trust!

HOUSE LADDERS

SINGLE-SIDED LADDERS

A home ladder with one-sided entrance is an indispensable element of home furnishings. It will be perfect for renovations and painting flats or hanging curtains. We offer single-sided ladders with a load capacity of 125 kg and 150 kg. The ladder is made of aluminum, durable and resistant to weather conditions and damage.

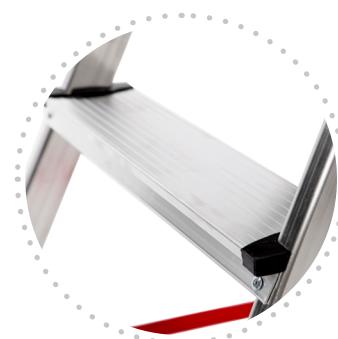

The ladder is light and easy to store, a large and safe platform 25 cm x 25 cm, wide aluminum steps and a high bow allow safe use during any work at height. Plastic feet are also responsible for safety in all conditions. The risk of the ladder sliding open is prevented by special security straps that are weather resistant (on 6, 7 and 8 step models).

60 X 60 cm bail enables
safe work at heights.

Precise bail connection
with a ladder support.

8 cm wide, non-slip,
notched steps
